# HQRA+

## DESCRIPTION

Advanced, skin lightening and anti-aging formula contains a gold standard combination of Tretinoin, Hydroquinone and Hydrocortisone. The #1 prescribed solution for reducing the overproduction of melanin and diminishing fine lines, wrinkles and deep creases. HQRA+ effectively treats photodamaged skin. Additionally helps hyperpigmentation brought about by hormonal changes. Ensures penetration and delivery of actives deep beneath the layers of the skin through a unique Trans-Epidermal Carrier. Increases collagen production by 80% leading to firmer, more supple skin. Regular use results in dramatically transformed skin that is brighter, smoother, luminous and youthful.

## BENEFITS

- ✓ Contains a gold standard combination of Tretinoin, Hydroquinone and Hydrocortisone to reduce hyperpigmentation and diminish the appearance of fine lines, wrinkles and deep creases
- ✓ Lightens uneven skin tone and pigmentation brought about by hormonal changes and excessive sun exposure, additionally improves the appearance of acne scars
- ✓ Treats photodamaged skin
- ✓ Reverses signs of aging
- ✓ Smooths and resurfaces rough skin, improving texture and tone
- ✓ Penetrates and delivers actives deep beneath the layers of the skin through a unique Trans-Epidermal Carrier
- ✓ 80% Increase in collagen production, for firmer, more supple skin
- ✓ Regular use results in dramatically transformed skin that is radiant and youthful
- ✓ Recognized as gold standard for the treatment of dark spots from excessive sun exposure and post-inflammatory hyperpigmentation
