DESCRIPTION

Powerful, custom compounded Tretinoin treatment is a clinically proven topical solution to repair photodamaged skin, combat and reduce the appearance of fine lines and wrinkles, hyperpigmentation, skin discoloration and the formation of acne. Stimulates collagen production for a healthier more youthful and even skin tone. Powerful actives penetrate deep within the cellular level to repair the damaged dermal matrix and treat and prevent the formation of acne. It is considered a gold standard anti-aging treatment and is available in three strengths including: Retinoic Acid 0.025%, 0.05%, 0.1%.
