Skin Lightening Cream #12

DESCRIPTION

Clinically proven, custom compounded Skin Lightening Creams help to lighten and brighten overall complexion and correct uneven skin tone. Concentrated, Hydroquinone based formula fades hyperpigmentation, liver spots, freckles and other skin discoloration by prohibiting new melanin formation. Available in three strengths: Hydroquinone 5%, 8% and 12%. Each formula is most effective when used with a daily skin care regimen that includes sun protection.

BENEFITS

- ✓ Corrects and lightens hyperpigmentation
- ✓ Evens skin tone
- ✓ Contains clinically proven Hydroquinone based formula that lightens and brightens overall complexion and corrects uneven skin tone
- ✓ Helps fade liver spots, freckles and other skin discoloration by prohibiting new melanin formation
- ✓ Available in three strengths; Hydroquinone 5%, 8% and 12%. Each formula is most effective when used with a daily skin care regimen that includes sun protection
- ✓ Functions as a highly effective pre and post treatment for in-office procedures
